

IMAGERY ANALYSIS SERVICE

PRODUCTION BOARD MEETING

Thursday, 28 September 1972 - 1330

MEMBERS PRESENT

OBSERVERS

ATTENDANCE AT PRODUCTION BOARD MEETINGS

Branch chiefs were invited to attend Production Board meetings. Their comments on attending these meetings are invited.

AIRCONDITIONER REPAIRS

[redacted] airconditioner will be shut down for repairs on Monday, 9 October from 0800-1700.

MANAGEMENT SCIENCE FOR INTELLIGENCE COURSE

[redacted] commented that this course is being offered for GS-12's through GS-16's, to be held 13-17 November at Naval Station Annex, Anacostia Building T-4. Members were asked to submit nominations to the Admin Staff. [redacted] was asked to inform the Board on how many may attend the class. (He has since reported that each Directorate will have a quota.)

This course is for managers and emphasizes the application of computers, information science, systems analysis, and operations research to the management of intelligence activities.

COMIREX

Cathode Ray Tube. Members of EXRAND and EXSUBCOM were briefed on the transmission of imagery through Cathode Ray Tube. The tubes used were off-the-shelf items. The resolution was very good. They tried to simulate what you would expect on the next system and ran tests with nine P.I.'s. The results of the test were very encouraging. Stereo capability is not yet available, but analysts indicated it would be needed.

Optical Bar Camera. IAS does not have any real problems analyzing the photography from this system. [] reported that the problems others were having seemed to have been blown out of proportion. The photography could be handled with some slight adjustments in procedures. The NPIC Planning Staff study on this problem indicated that the cost of a possible solution may not be worth the potential gain. It would appear that no action will be taken at this time.

REQUESTS FOR SPECIAL PURPOSE MILITARY MAPS

25X1A

[] asked that all IAS requests for DOD to make special purpose maps be submitted to him by Friday, 29 September. This is a routine annual request.

SURPLUS EQUIPMENT

25X1A

[] asked that AS be contacted concerning disposal of surplus or obsolete equipment. He noted that equipment should remain in place until picked up by [] It should not be placed in the corridor.

25X1A

CLEANLINESS IN IAS

25X1A

[] encouraged all IAS personnel to make an extra effort to keep their areas orderly and clean. It is particularly appropriate now since the area is newly painted and clean.
